The Approval accorded above is subject to the conditions that any of the following is not violated or intervened during the period of validity of said approval:

1. The institution must continue to have Affiliation to a University for the above courses before making admissions. In the absence of such Affiliation this letter of approval shall be treated as Withdrawn (Order of the High Court of Madras in W. P. No. 33256 of 2002 and other Batch of Petitions).
2. The approved course(s) shall commence as per the academic calendar of the Affiliating University.
3. If this letter of approval is received by you after the closing date of State / National Level Central Counseling for Admissions in the concerned State / Union Territory, this Letter of Approval will not be valid for making any admission during the above specified academic year, and shall be treated as withdrawn.
4. *No excess admission shall be made by the Institution during any academic year.*
5. The approval is valid only for the academic year 2004-2005. If no further extension of AICTE approval is received beyond the academic year 2004-2005, this Approval Letter will not be valid for making any admission for the subsequent years.
6. Any other condition(s) as may be specified by AICTE from time to time.

Consequent to the Supreme Court Judgment, the Model Constitution of Governing Body notified by AICTE in its approval Regulations 1994, stands overruled. It has been decided that while AICTE will not insist on any nomination in the Governing Body of Private Unaided Institutions, the Affiliating University / State Government shall impose minimum conditions of affiliation, such as, prescription of qualifications of Governing Body Members, in order to ensure academic excellence. It shall be desirable for the private unaided institutions to induct at least 50% of the members of the Governing Body drawn from renowned academia, academic administrators, Subject Experts and professionals from industry, in order to seek their innovative ideas for continuous improvement in the delivery of teaching learning process, matching best practices elsewhere and achieve excellence.

In exercise of power conferred under 10(p) of the AICTE Act, AICTE, may inspect the institution any time, it may deem fit to verify the progress / compliance or for any other purpose.

The suggested improvements, enclosed, herewith, should be complied with before the commencement of the next academic year, failing which appropriate action may be effected.

In case you have applied for Increase in Intake / Additional Course(s), separate communication in this regard shall be issued shortly.

F.No.: 732-52-309(E)/ZFT/2001

In the event of infringement/ contravention or non-compliance of the above Conditions and/or the provision of AICTE Act & Regulations/ Guidelines/ Norms & Standards as prescribed by AICTE, further actions, leading to "Reduced Intake", or "No Admission" or "Withdrawal of Approval", may be taken by AICTE and the liability arising out of such actions will be solely that of the Management of the Institution.

Sub: **Extension of approval to Adhiparasakthi College of Engineering, G.B. Nagar, Kalavai Vellore Dist. Tamil nadu - 632 506 for the year 2005-06- Reg.**

Sir,

As you are aware, **All India Council for Technical Education** has been mandated under the AICTE Act, 1987 to ensure **maintenance of norms and standards** with regard to technical education in the country. In exercise of this mandate, the Council insists on fulfillment of the minimum requirements prescribed for imparting technical education by the institution so that **quality** is not compromised and stakeholders are satisfied. The Council also undertakes an **annual Inspection** of the institutions and conveys deficiencies to them for **rectification**.

It has been observed however that notwithstanding the Council's **repeated advice** to comply with minimum norms and standards, many institutions continue to be **complacent** about taking steps to remedy the deficiencies. Such institutions suffer from **critical deficiencies** of faculty and other requirements. Feedback of students with regard to quality of education imparted by such institutions has evoked grave concern. The Expert Committees, following **holistic appraisal** during inspections, have also pointed out severe shortcomings in key areas.

Your institution has several deficiencies, which are listed in **Annexure-A** for your perusal. These deficiencies have rendered the institution liable for strict punitive action. However, the Council has decided to take a lenient view and put only the course(s) which suffer from the most critical deficiency i.e. **shortage of faculty** in the reduced intake category. The approved course(s) along with recommended intake for the year 2005-06 in respect of **Adhiparasakthi College of Engineering, G.B. Nagar, Kalavai Vellore Dist. Tamil nadu - 632 506** is as under:-

COURSE (S)	APPROVED INTAKE 2004-05	APPROVED INTAKE 2005-06
Computer Science & Engg	60	60
Electrical & Electronics Engg	30	30
Electronics & Comm. Engg	60	45

वेबसाइट / Website : www.aicte.ernet.in

Note:- Additional intake / new courses / PIO quota not granted on account of deficiencies in running of existing courses with existing sanctioned intake (wherever applicable).

The Council is committed to facilitating the institutions to come up to the expectations of the stakeholders through rectification of deficiencies. It has therefore been decided by the Council to give yet another opportunity to **rectify** at least the deficiency of faculty irrespective of the cadre ratio for consideration of restoration of UG course(s) in Engineering & Technology / Pharmacy / MBA and MCA. However, for restoration of intake at PG level in Engineering & Technology and Pharmacy, a minimum of one faculty with Ph.D. qualification and two with postgraduate qualifications in the respective discipline would be essential.

In case the institution is able to recruit the required faculty for individual course and intimate the Council regarding the same in the **enclosed Proforma (with a copy to the concerned Regional Office)** latest by 7th July, 2005, the Council would favorably consider proportionately restoring intake in course(s) where it has been reduced as soon as the appeal is received by the Council.

Please note that the Council may independently verify the factual status in respect of recruitment of faculty. The institution shall be liable for strict action including action under the relevant provisions of Indian Penal Code in case false information is furnished to the Council on recruitment of faculty.

It may also be noted that relaxation in respect of rectification of deficiencies in terms of faculty is applicable only for the purpose of **restoration of intake** for the academic year 2005-06. All other deficiencies including appointment of faculty have to be complied with by 31/08/2005 for extension of approval for the year 2006-07.

A compliance report indicating rectification of **all the deficiencies** including details of faculty recruited for each course must be received by the Council latest by 31st August, 2005 to entitle your institution for extension of approval for the year 2006-07. The compliance report must be accompanied with a visiting/processing fee as prescribed by the Council in the form of a demand draft in favour of Member Secretary, AICTE payable at New Delhi. In the absence of the processing / visiting fee, the compliance report may not be entertained.

Following the compliance report, the Council would verify the status in respect of rectification of deficiencies through physical inspection without any prior intimation. The institution should therefore be prepared for random inspection without any prior notice. Extension of approval for the year 2006-07 shall be dependent on the compliance report and the outcome of the surprise inspection.

Enclosure:- Annexure-A

17. BESTPRACTICES ADOPTED:

BEST PRACTICE – I

1. Title of the Practice: Delegation of authority and Decentralization

2. Objectives of the Practice:

The objective of this practice is to Delegate authority and Decentralize power. We need to arrive at quick decision making related to academic and administrative activities at all levels so it becomes mandatory to delegate the authority at various levels. The participation of the faculty and administration at all levels is accountable to achieve good relationship among the employees. This ensures the fairness at all stages. Several effective follow up measures and good communication through proper channel for making administrative decisions are initiated.

3. The Context:

There are 6 UG Programmes under Engineering Disciplines in our Institution. Around 400 students have been enrolled in various disciplines. There are 80 teaching faculty for assessing students' learning, through a wide range of strategies such as tests, papers, and project-oriented demonstrations of knowledge and 50+ nonteaching faculty members to assist the faculty members and students. Therefore, it is mandatory to make decisions related to Academics and Administrative activities then and there for effective implementation of rules and regulations. In order to facilitate the decision faster and to ensure complete transparency at various levels, decentralization strategies have been enforced.

4. The Practice:

A committee consisting of the Managing Trustee, Administrative Officer and the Principal has been constituted to decide on certain policy matter. This committee meets once in a month to review the progress in academic, research, placement etc., Apart from this Executive Committee, the institution has got various other committees like- Discipline and Welfare Committee, Complaints cum Redressal Committee, Women Empowerment Cell, Grievance Redressal Committee etc., to take the decisions at the right time.

5. Evidence of Success:

- Delegation of powers to the Head of the Institution and the Heads of the Departments to bring changes in academic activities to make progress in result.

- Preparation of the budgets for various activities.
- Implementing value added Courses to all the students
- To increase the number of funded projects from Government agencies.

6. Problems Encountered and Resources Required:

- Orientation of delegation and appropriate exercising of delegation to the Heads of the Departments

BEST PRACTICE – II

1. Title of the practice: Advisory and Mentoring of students at all levels

2. Objectives of the practice:

In our institute, Mentoring provides the opportunity to discuss the problems and difficulties to get professional help and guidance by building trust and confidence. Mentoring is a powerful tool for providing students with the emotional and instrumental support. However, mentoring for our students makes students feel more engaged and linked with campus, which can eventually boost student results. In our institution, mentoring encourages and motivates students to achieve learning objectives. Mentoring serves various purposes, especially, focuses on improving the subject knowledge, skills and confidence required to fulfill their responsibilities effectively. Mentors also help students deal with obstacles including parents who are not alive and unstable family situations.

3. The Context:

Majority of the students studying in our Institution are coming from rural background. They feel lack of encouragement and motivation. In order to provide confidence, the teacher establishes a trusting relationship which helps to develop the personal and professional growth of the student. In our institute, the role of mentoring implies that, good teaching includes caring for students, helping them to reach their goals and encouraging their successes and accomplishments. Also, it includes, guiding the students in their projects, clearing the doubts, giving live demonstrations, giving moral strength through spiritual guidance. The specific characteristics of a successful mentor are to behave patiently to the students as the students at this age are highly emotional as medically proven. The mentees must remember that mentors are doing for their goodness, so being a good mentee is the best way to ensure the relationship and enjoy a healthy purposeful existence.

4. The Practice:

Every 15 students are assigned to a mentor. Students are practised in the following ways by our mentors in our institute:

- Mentoring relationship with students is the ultimate target of our college success and the purpose

of all mentoring activities are related to university results and improving their technical knowledge.

- The problem of the students both academically and personally, are identified by the mentors. A proper follow up actions have been initiated by the mentor to rectify the problem. The follow up tasks are assigned to the respective experts and a date is fixed to achieve the target and verified if the problem has been solved. For example, if the student lacks in communication skill, he is assigned to the English Professor to develop their communication skills.
- Mentoring encourages and motivates the students to achieve learning objectives and progress in their curricular and co curricular activities.
- Every week, mentors meet with their mentees regularly.
- Mentoring has a positive effect on the academic achievement of our students by our faculty and helps them to prepare for succession their future professional careers.
- Our mentors help students to understand the soft skills that are necessary for success on a college campus, such as public speaking , problem solving etc., and willingness to share failures and personal experiences.
- Our mentors share both their right and wrong stories. Both experiences provide valuable opportunities for learning.
- A growing mindset and learning attitude.

5. Evidence of the success:

- The marks scored by the students in the Periodical tests and model exam increase gradually so that the overall result of the class also increases.
- Our mentors have provided moral support to our students to face any situation with more courage and confidence.
- Our students are more productive to help people to be right, than prove they are wrong in their working place.
- Our mentors greet the proteges warmly and help the mentees identify their professional needs and goals.
- Successful mentoring relationship includes creating a relationship of trust, clearly defining roles and responsibilities, establishing short and long-term goals, using open and supportive communication, and collaboratively solving problems.
- Our students have the disposition and desire to develop other people.

- Skill in developing others. This includes the very real skills of: active listening, asking powerful, open-ended questions, self reflection, providing feedback and being able to share stories that include personal anecdotes, case examples, and honest insight.
- Committed to expanding their capabilities and focused on achieving professional results.
- Clear about their career goals, needs, and wants.
- Mentees must be open and receptive to learning and trying new ideas.

6. Problems encountered and resources required:

- The students and mentors should select a plan to try, and discuss desired outcomes.
- They need to implement the plan. The mentor should be supportive and encouraging, and reinforce successful completion of the plan.
- The mentor and mentee should be reflective and discuss the effectiveness of the activity and make adjustments as needed.
- Mentors become stronger and more intentional in their teaching.
- Mentees are able to learn and grow under the mentor's guidance.
- Our mentors' relationship can push our mentees' career to new heights.
- Our mentoring can lead to greater career success in future, including promotions, pay hikes and increased opportunities.
- The truth is that effective mentoring takes effort, and creating successful mentoring relationships requires specific skills, sensibilities and structure from both the mentor and the mentee.
